

DEPARTMENT ATTORNEY GENERAL - MPCA

Office Memorandum

TO : REILLY TAR FILE

DATE: 10/3/1983

FROM : KEN STEVENSON
Legal Assistant

PHONE:

SUBJECT: PHONE CONVERSATIONS WITH MARK KASTOR, DORSEY

Today I received a follow-up phone call from Mark Kaster, Dorsey law firm, concerning several matters.

1. He asked about the AG's response to his verbal request of last week concerning our producing a number of documents referred to in the October 29th, 1974 PCA Chronology. Of particular concern were the following documents:

- | | |
|-----------------------|--|
| (a) November 22, 1970 | PCA Litigation Report |
| (b) October 6, 1972 | Lindall to Merrit documents |
| (c) August 24, 1973 | Document re meeting with PCA, MDH, SLP's OSM |
| (d) August 21, 1973 | Supporting data re land farming from OSM |
| (e) January 29, 1974 | Meeting notes |
| (f) May 28, 1974 | Letter from MDH to PCA re proposed stipulation agreement |
| (g) July 16, 1974 | OSM, Dr. Hamm document |
| (h) August 20, 1974 | Hydrology study |
| (i) October 7, 1974 | Metro Council memo |
| (j) October 28, 1974 | Meeting with OSM and State |

I explained that Steve Shakman had previously asked the Dorsey attorneys to make such a request in writing and that to the best of our knowledge we had already produced all non-privilege, pre-1975 documents to Reilly.

2. Mark asked when I would be ready to produce HUD documents. He said he had a memo from Becky Comstock saying that, pursuant to a conversation with David Hird, I should be contacted for this production. I explained that until I had explicit instructions concerning such a production from David Hird, I could not produce these documents.
3. He asked when the EPA documents would be ready to produce. I said that I could not make a date commitment at this time, but that we were in the process of organizing these documents and would make them available as soon as possible, providing I was given proper authorization from the U.S.
